Research Experience

UC Riverside, Department of Clinical Informatics, Research Assistant Advisor: Dr. Daniel Novak, PhD; Dr. Joshua Fernandez M.D. Study: Utilization of TriNetX clinical database while documenting unique clinical cases. <ul style="list-style-type: none">Project Goals: Leveraging the clinical database to uncover unique pathologic correlations.Responsibilities: Conducting data mining and analysis on the TriNetX database.Outcomes: Furthered scientific exploration through multiple abstract acceptances.	January 2024-Present
UC Riverside, Department of Engineering, Research Assistant Advisor: Dr. Bir Bhanu, PhD Study: Using MIMIC eye gaze dataset to improve deep-learning model for Chest X-ray interpretation. <ul style="list-style-type: none">Project Goals: Enhance deep-learning model accuracy to interpret Chest X-ray images.Responsibilities: Analyze and interpret the transcripts and images in the dataset.Outcomes: Currently in research design phase	March 2024-Present
Riverside Community Hospital, Research Assistant Advisor: Dr. Nicholas W. Sheets, Dr. Lien-Khuong Tran M.D. Study: Utilization of NEISS database and documentation of unique clinical cases. <ul style="list-style-type: none">Project Goals: Understand ATV-related risk factors and injuries while exploring rare clinical pathology.Responsibilities: Analyzed NEISS database to investigate disposition status correlation.Outcomes: Furthered scientific exploration through multiple abstract acceptances.	June 2023-Present
Riverside University Health System, Research Assistant Advisors: Dr. Moazzum Bajwa, M.D., MPH, Dr. Shivang Shah M.D. Study: Documentation of unique clinical cases. <ul style="list-style-type: none">Project Goals: Analysis and dissemination of unique clinical casesResponsibilities: Gathered patient history, diagnostic procedures, treatment plans and outcomes.Outcomes: Furthered scientific exploration through multiple abstract acceptances.	June 2023-Present
UC Riverside, Ultrasound Student Instructor Cadre, Research Assistant Advisor: Dr. Lucas Friedman M.D. Study: Evaluating whether ultrasound selectives enhance clinical performance. <ul style="list-style-type: none">Project Goals: To understand clinical applications of ultrasound and effectiveness ratings.Responsibilities: Survey construction and project design.Outcomes: Abstract accepted to 2024 Riverside Western Group on Educational Affairs Conference	August 2022-June 2023
